Description

1200 mm wide

This premium and robust Bonvue heated food display comes to us from Bonvue, one of the premium catering equipment brands within the catering equipment business. This display aims to provide an eye-catching space to present your culinary work, straight from the kitchen.

This impressive food display is strong and built with almost double the power of the smaller heated display units from Bonvue. This display has two levels of industrial shelving, strong secop compressors for functionality, LED lighting to see inside the interior, self-evaporating drainage to remove moisture and a triple glazed front with heated filaments – all encased within a stainless-steel framework.
